## BLOCK About us

The Viche of Ukraine Association is an extraterritorial voluntary association of Ukrainians and Ukraine's allies from around the world.

We are convinced that the path to a just and honest society begins with the struggle for the victory of justice over those who suffered the Ukrainian people and the state of Ukraine during the War that began on February 24, 2022. And we believe that in this way we can contribute to the dignified life of every person in the post-war world and the happy future of our children.

The Association has an ambitious goal to restore justice to the affected people and organizations of Ukraine through:

- due to the end of the War;
- payment of reparations;
- fight against accomplices and accomplices of the aggressor, crime and corruption.

We act in accordance with our own conscience to help the victims of the Russian invasion of Ukraine, to bring to justice those responsible for the crimes, those who support such anti-human illegal actions, and those who betrayed the interests of the Ukrainian people and the state of Ukraine.

Our goals to achieve the goal:

- punishment of military, civilian criminals, accomplices of the aggressor and traitors of Ukraine by assisting the International Tribunal and other authorized institutions (as well as, if necessary, creating new ones) in their detection, search, detention and punishment
- facilitating the return of forcibly interned and displaced persons, children and adults held hostage by the aggressor
- assistance in the return of cultural and material values stolen by Russia and its allies, as well as the identification, assessment of damages and compensation for damaged and destroyed cultural and material values
- promoting the restoration of a transparent legal judicial system
- forcing the aggressor, his successors and accomplices to pay reparations, contributions and compensations

Decency, honesty and humanity are the basic values that unite the members of the Chamber of Ukraine and are the basis of all its activities.

Therefore, we will direct all our capabilities, resources and mass media in our hands, all the levers of influence to the restoration and implementation of the principles of justice, peace and humanity to protect the future of our children.

We invite to our ranks all those who share our values and want to contribute to building a post-war society based on the principles of honesty, justice, cooperation and free development.

At the same time, the Chamber of Ukraine is the newest decentralized open association of people like Web3, based on the concept of democracy and backed by innovative technical capabilities. Inspired by the democratic traditions of the Chamber, we abandoned the hierarchy and chose the form of a decentralized autonomous organization (DAO).

To make all decisions, the Association uses the mechanism of collective management through tokenization of the votes of its members to make control as transparent as possible, and management on the way to the goal is effective and cohesive.

Our association is fully accountable to its members - all internal accounting and financial management are based on blockchain technology.

We, the Chamber of Ukraine, are open to new ideas and proposals. After all, collective interaction is a real way to achieve the truth and change lives for the better.

## BLOCK Warehouse

The Viche of Ukraine Association is open to like-minded people who, by conscience, are ready to cooperate for the restoration of justice. We strive for openness in all processes and each of us maintains transparent reporting of our activities within the organization.

As supporters of, in fact, the democratic traditions of the Chamber, we believe that the new possibilities of blockchain technology can transform the perception of this type of organization.

The Viche of Ukraine Association represents the latest Web3 community, combining the concept of democracy and technological tools of automation, which is based on the coordination of the form of decentralized autonomous organization (DAO) based on the blockchain.

The mechanism of collective management through tokenization of votes of its members is used for all decisions of the Association. Full members of the Association receive their personal tokens, which they use as votes to resolve all issues of its activities in accordance with the rules of the majority.

The transparency of this process is ensured by the functioning of the public protocol in the blockchain.

Thus, the transfer of tools to the digital dimension opens up additional opportunities for participants to exercise their powers, which are exercised in the format of interactive democracy. This will increase reliability, simplify process accounting and improve the effectiveness of decision-making mechanisms.

Reporting and control are an integral part of the work of the Association Council and our volunteers, so all expenditures within the Association are subject to the procedure of approval and accounting in the form of relevant transactions in the blockchain.

In general, the tokenization of the internal processes of the Association ensures the security of personal data and ensures the reliability of all actions carried out by the owners of tokens within membership.

The structural bodies of the Viche of Ukraine are:

The General Meeting is a collective supreme decision-making body, which consists of all Full Members of the Association and decides on all key issues of the Association by direct vote with a quorum.

The Council of the Association is the executive body of the Viche of Ukraine, which is elected by the General Meeting and manages the period between the General Meeting of the Association.

The Council of the Association ensures the implementation of decisions on the activities of the Association, approved by the General Meeting of Members of the Association, ensures the development and approval of all internal regulatory documents of the Association.

The Council of the Association may establish an Advisory Commission to develop projects for the activities of the Association and ensure effective cooperation with structures and organizations close to the Association on the statutory objectives, goals and forms of work.

Chairman of the Association Council - elected by the Members of the Association Council and organizes the implementation of the decisions of the General Meeting of Members of the Association and the Association Council.

President of the Association - represents and protects the interests of the Association in government agencies, NGOs and other bodies.

Vice President of the Association - performs an advisory function to the President of the Association, represents and protects the interests of the Association.

The Audit Commission is a controlling body elected by the General Meeting of Members of the Association and is a body that protects the rights of members of the Association, controls and regulates the executive bodies of the Association.

## BLOCK Documents

The official document of the Association is the Charter of the Association.

### Decision on establishment

The General Assembly (General Assembly) decides to establish an association under the name "Viche of Ukraine" under Article 60 of the Swiss Civil Code at 6300 Zug Untermüli, 7, under the auspices of Tharpes Treuhand.

A written declaration of receipt of the place of registration is available.

### Approval of the statute

The Association approves this draft statute of April 8, 2022 and establishes its current status.

## BLOCK Activity

This section will reflect all cases opened and executed by the Association, declared for the purposes of the Association.

## BLOCK Media Hub

The Viche of Ukraine Media Hub is a collection of official social media pages where the Association conducts information activities within the framework of its goals of disseminating reliable information about crimes against Ukrainians and Ukraine, collects and publishes facts, comments on international political events. which directly or indirectly relate to or may affect events in Ukraine.

We are currently broadcasting on YouTube, Meta (Facebook and Instagram), Twitter, Pinterest, Telegram, and in the future the Media Hub will cover other social networks. On our official channels we tell about our activities and initiatives.

And most importantly, the online offices of Viche Ukrainy express our voices, positions and views on the current situation. They are designed to:

- to acquaint the widest possible audience with the events caused by the Russian War against Ukraine,

- to raise the public debate together with opinion leaders and authoritative public figures for its evaluation,
- to unite as many people as possible around the platform of the Viche of Ukraine Association in order to work together to achieve justice and punish those who have suffered at the hands of Ukrainians.

We are convinced that this is our common responsibility to Ukrainians and an opportunity to contribute to the common good.

If you have the desire and skills to work with information, we invite you to the team of media volunteers "Viche Ukraine".

If you also have valuable information that will help the Association in the fight for justice, fill out the form (you can create a link to the form for this) or write to us on social media.

### BLOCK: Questions and answers

#### Why the Association?

An association is a union, union, society, association to achieve a common goal.

Purpose: to create a state suitable for the full life of Man, which unites members of the association "Viche of Ukraine".

#### Why Viche?

Viche - a general meeting of citizens of the cities of Kievan Rus to consider public affairs. It was characteristic of all Slavic peoples as a manifestation of the rule of law.

Article 5 of the Constitution states: The bearer of sovereignty and the only source of power is the people.

In modern technologies, such as blockchain, web3 and others, add the ability of the people to exercise power DIRECTLY,

that is, without the mediation of deputies of different levels.

Therefore, the future of the system of exercising power by the people is directly similar to the Viche.

#### How is the Viche of Ukraine Association different from others?

The fundamental difference of the association "Viche of Ukraine" is the versatility and complexity of the approach to improving the lives of the Ukrainian people

and impact on the world community.

Establishment of an association in Switzerland (extraterritoriality in relation to Ukraine), application of transparent technology

blockchain in decision-making by voting, and in the use of funds and financial statements make it impossible

any external influence on the activities of the association.

What levers of influence will the association use to solve its tasks?

A wide range from the formation of public opinion through the media sources of the association to the investigation of crimes

against the Ukrainian people and filing lawsuits with the courts of both Ukraine and other countries.

What are the sources of funding for the association?

The association plans to raise funds both in the form of sponsorship and charitable contributions, and in the form of membership fees.

Funds will be administered transparently using blockchain technology.

How will the association "Viche of Ukraine" be useful for Ukrainians?

The association aims to restore justice to the Ukrainian people. Assistance in obtaining reparations and contributions from

Russia as the aggressor's country. Bringing to criminal and financial responsibility the direct perpetrators, accomplices and customers of crimes committed.

How can I be useful to the association?

You can both help the association on a volunteer basis and become a member of the association and take a direct part in decision-making and implementation.

Let's win together!

What is a blockchain?

It is a technology that allows you to decentrally store and record transactions. All this is done with the help of cryptographic methods of protection, which allow to exclude intermediaries. The key concept here is decentralization. Decentralization means that there is no central computer or server where all information is stored. On the contrary, all data is stored simultaneously on multiple devices in different locations. Therefore, if one computer is suddenly hacked, the other computers will not lose all the information.

### BLOCK Volunteering

Our volunteers work on a voluntary basis and help to disseminate information about the activities of the Viche Ukraine Association to as many people as possible. Social networks are a priority for today.

If you want to help organizations with the dissemination of information or have certain organizational skills - fill out the form JOIN and indicate in which social networks or what skills you can help in this common cause.
